PROFESSIONAL SUMMARY

2nd-year Engineering student with strong **HTML** skills. Passionate to learn **Machine learning**. Demonstrates initiative through academic projects and leadership roles in college tech societies.

SKILLS

- ❖ **Python**
- ❖ **HTML, CSS, Java**
- ❖ **Git and Github**

ACADEMIC PROJECTS

❖ **HealthVitals — Medical Data Dashboard**

- Developed a tracking system that assigns unique patient identifiers and visualizes disease patterns using HTML, CSS, and JS.
- Created a dynamic interface with automated color-coding and data-driven charts based on patient health records.
- Demonstrates proficiency in responsive dashboard design, authentication logic, and real-time data visualization.

❖ **AgriScan — AI Crop Disease Detector**

- Developed an image recognition tool that identifies bacterial and fungal diseases from leaf photos.
- Implemented classification logic to analyze leaf patterns and provide instant diagnostic feedback.
- Focuses on computer vision, agricultural technology, and real-time disease detection.

EDUCATION

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.E	SJB Institute of Technology, Bengaluru	8.2 (Current)	2026
Pre University	Shree Guru Independent PU Science College (State Board), Kalaburgi	90.16%	2024
High School	Vivekanand Vidyaniketan (State Board), Kalaburgi	95.84%	2022

ACHIEVEMENTS / HOBBIES

- Actively learning and working on projects for skill development.
- I am passionate about dancing and music.
